Trial of the Challenge Safe. REPORT OF THE COMMITTEE.

We, the undersigned, citizens of this City, having acted as a Committee on the trial of one of the Challenge Safes manufactured by Hornbach & Wagner, of this city, yesterday afternoon, certify by this, that said safe was placed on four small brick layers, twenty inches from the ground, surrounded by a circular wall about three feet distant from the Safe, and reaching more than a foot above it, and covered from all sides as well as from top and bottom by wood, thus filling the whole space between the Safe and the wall and some way upwards, with just four cords of wood We having inspected the books papers and bank bills that were placed in the Safe, fire was set to the pile of wood, and owing to a quantity of turpentine which had been poured on the wood pile, the whole was in a short time in a blaze The flames then continued raging for an hour and a half around, above and below the Safe, melting off a solid brass knob of an inch and seven eighths in thickness, and bringing the Safe to a red hot heat, when we, the Committee considering this a fully satisfactory trial and one that a safe is unusually subjected to in case of conflagration, concluded to let an engine play on it. This was quickly brought in execution, the stream of water being directed against the Safe and after it had thus been cooled off and the flames extinguished, to admit of approach, it was tried to be opened which after some little time was effected, when in our presence the Safe was opened and to the astonishment of all persons present the articles deposited inside, including $15 in bank notes belonging to Mr Illsley, were found uninjured by fire and only some of them slightly dampened by the steam created by extinguishing the flames

Fully convinced that the test said Safe was subjected to was a fully satisfactory one, and much severer than any ever before given in this city, we take the opportunity of recommending the Challenge Safes of Hornbach & Wagner to all who may stand in need of a safe guard for their books, papers and other valuables, as a perfect security against all the depredations of fire

TO THE PUBLIC.

THIS is to certify, that in consideration of the many misfortunes which have attended me in the erection of my Saw Mill, at Mapleton, in the town of Oconomowoc, Waukesha County, I deem it proper and in justice to say, that the troubles arising in the starting of my Mill, did not lay in the fault of the machinery or water wheel, patented by L. D. Goodwin, and manufactured by Decker & Seville, but from other causes, and I do most cheerfully recommend said water wheel, to the Milling community, as being the best wheel now in use, for driving any kind of machinery, and that it has fully come up to all the recommendations given to it I shall take great pleasure in showing my Mill, to any one desirous of using the best water wheel in the State. In conclusion I would say to all parties building Mills, to profit by my experience, and employ none but good, honest, steady and efficient Millwrights, and you will save money.

THE DAILY SENTINEL.

PROPRIETORS,
Under the Name and Firm of Rufus King & Co.

MILWAUKEE.

Monday Morning, April 14.

NEWS OF THE MORNING.

Under our marine head will be found notices of several disasters by the gale, and a list of vessels in the lower harbor.

Hon Orsamus Cole, one of the justices of the Supreme Court, is very ill at Madison. His hosts of friends wish him a speedy recovery.

We conclude to day the abstract of Mr Lapham's valuable work on the antiquities of the North west.

Numerous State items of interest will be found in our columns to day.

No Steamer made its appearance up to 11 P M Saturday, although two are full due.

Launch of the Adriatic.

The steamship Adriatic constructed by George Steers and intended for the Collins line was launched at New York on Monday, between ten and eleven o'clock, in the presence of more than thirty thousand persons—a larger assemblage than was ever convened before on a similar occasion in that city. The fame of this vessel for size, strength, and beauty of proportion had long been heralded by the press, and hence the vast multitude who were present to witness her first plunge into her destined element. She is to have two oscillating engines, the cylinders of which will be 100 inches in diameter and 1[illegible] inches stroke. Their nominal horse power will be 1,6[illegible]—actual power 1000. The Adriatic will probably take her place in the Collins line about the first of September, and it is the general expectation that she will make a shorter passage to Europe than has yet been accomplished by any other steamer.

The Adriatic is the largest of American steamships and is said to be larger in tonnage than any other afloat. The dimensions compare with the other great steamers as follows:

	Adriatic	Niagara	Vanderbilt	Atlantic
Length	354 feet	245 feet	338 feet	[illegible] feet
Breadth	50 feet	55 feet	49 feet	45 feet
Depth	[illegible] 2 in	31 feet	33 feet	31 feet
Tonnage	5 909	5 [illegible]	5 100	[illegible]

It will thus be seen that the Adriatic is nearly ten feet longer than the Niagara, and twenty feet longer than the Vanderbilt, and although exceeded in length by the Cunard steamship Persia, her great beam gives her greater capacity to the extent of a hundred tons or more.

Backing Its Friends.—The Madison Argus of Friday discharges the following pair of squibs at its two Democratic yoke fellows in this city the *News* and the *Wisconsin*.

A Democratic Paper at Milwaukee.—Democrats throughout the State will be glad to learn that there is *finally* a prospect of a newspaper in Milwaukee that will be an active, decided, outspoken organ of the Democracy. The *News* has been purchased by a gentleman who will at once give it a tone and influence *that it has never possessed*.

The St Louis Election.—The *Daily Wisconsin* and *other shaly and Shanghai papers* are trying to narrow down the triumphant election of John How, Mayor of St Louis, to "a Benton victory."

We did suppose that the *News*, under its present management, had been "an active, decided, outspoken, organ of Democracy," and that the *Wisconsin* was neither "shaly," nor "Shanghai." It appears, however, that neither of them comes up to the Madison standard, since they could not defend the frauds and forgeries of the late Car[illegible] or sustain Barstow in his usurped authority. Hence, the frowns of "the Forty."

Mr Buchanan, the Nebraska Candidate for President.—As the Madison *Argus*, fugleman for the party, has signalized to the Democracy of Wisconsin to enlist under Mr Buchanan's banner, it may not be amiss to give them an idea of his standing. In this view we give below a couple of paragraphs from a letter written by Mr Buchanan to Senator Slidell. Mr Buchanan says in relation to the Slavery question:

"This question has been settled by Congress and this settlement should be inflexibly maintained. The Missouri Compromise is gone and gone forever. But no assault should be made upon those Democrats who maintained its provisions; they are now willing in good faith to maintain the settlement as it exists. Such an union is strong, is wise and just in itself.

It is well known how I labored in company with Southern men to have this line extended to the Pacific ocean. But it has departed. The time for it has passed away, and I verily believe that the best—nay the only—mode now left of putting down the fanatical and reckless spirit of Abolition at the North is to adhere to the existing settlement without the slightest thought or appearance of wavering, and without regarding any storm which may be raised against it."

It remains to be seen whether the writer of the above is just the man to receive the vote of free men of Wisconsin. We do not see how Douglas or Pierce, even, could well go farther in pledging themselves to Slavery.

Fatal Accident.—Three young lads, [illegible] Whitney, Vincent Bell and W Howell, of Chicago, from 16 to 19 years of age, went gunning on Thursday last, when Bell accidentally shot Whitney in the side, inflicting a mortal wound. Whitney died within an hour or two after the accident. He was a son of John Whitney, of Chicago, and young Bell, who shot him, a son of Judge Bell, of the Commercial College. The lads were warm personal friends, and the survivor is in deep affliction.

Contested Seat Decided.—The House of Representatives has decided that Mr P B Fouke is entitled to the seat in Congress from the 8th Illinois district. We believe that Mr Fouke was the Anti Nebraska, or Republican Candidate. If so, the decision makes the Illinois delegation stand 5 Republicans to 4 Nebraska men, giving our side the majority, and the vote of the State, if it should happen that the election of President goes to the House.

Tasteful and Truthful.—We clip the following paragraph from the last Ozaukee Co *Advertiser*, as a sample of the wares which its editor deals out to his readers:

A Nigger for Mayor.—The Know Nothings and *black* Republicans of Milwaukee, at the city election, run Professor Jesse Epps, a nigger "renowned in story" for Mayor and we understand he received their entire vote, 151.

The Madison *Argus*, the "official paper" of the State, regaled its readers with a similar squib. Such are the weapons of Sham "Democracy."

Green Bay and Mackinac.—The Green Bay *Advocate* says that Fox River is free from ice, and the ice is fast disappearing in the Bay. It anticipates that navigation would be clear by the last of last week.

The same paper chronicles the arrival of a party of gentlemen who came on foot from Mackinac and report the ice as "of a poorer quality than it has been known for many years."

Plaindealer Redivivus.—The Wa[illegible] *Plaindealer*, which was burned out on the [illegible] of March, and everything in the shape of type, presses &c destroyed, makes its appearance again, in a bran new fit out, and looking brighter than ever. The enterprise of the proprietor is every way commendable and deserves success.

☞The Jackson *Mississippian* says that Mississippi "owes a debt to the Pierce Administration." Prentice wants to know whether that State means to issue bonds to secure its payment, and if so, what will probably be their market value?

New Branch of Trade.—The Panama Railroad is now bringing over from the Pacific large quantities of oil sent by whalemen to be reshipped to New York and New England ports. By this route, whalers can save 6 to 8 cents per gallon over the old route *via* Cape Horn.

EXTENSIVE ROBBERY
OF
$50,000 WORTH OF DIAMONDS & JEWELRY
ARREST OF THE THIEF
RECOVERY OF THE PROPERTY

From the N[illegible] [illegible] April 11.

Yesterday morning, between [illegible] and [illegible] o'clock, a daring robbery was committed in the jewelry store of Messrs Ball Black & Co, corner of Broadway and Murray street, by George W Haydon, one of the employees in the establishment, about $50,000 worth of diamonds and jewelry being stolen. The circumstances of the affair are as follows:

Between 9 and 10 o'clock on Monday evening, Haydon rapped on the door, the store being closed, and was admitted by the porter upon making known his name. At the time, five clerks and the porter were in the store, and Haydon told them that [illegible] he had been locked out of his [illegible]. As he had frequently stayed there over night the clerks thought nothing strange of the matter. After talking a while, Haydon produced a bottle of claret wine which he offered to the clerks, but they [illegible] and consequently did not drink it. In course of time the beds were made up and the party retired, but Haydon feigned illness and [illegible] times went through a trap door into the basement to the water closet. Towards daylight two of the clerks awoke, and missing their companion thought something [illegible]. They accordingly arose and proceeded to the basement, when, to their [illegible], they found the iron door leading to the street open, the key in the lock, and Haydon gone.

Upon further examination one of the [illegible] cases used for displaying diamond jewelry was found to be [illegible] and [illegible] gone from other cases. Information of the robbery was immediately given at the Chief's office, when a numerous force of officers under charge of [illegible] were dispatched to various points, every avenue leading from the city being closely watched. Officer Bowyer also joined in the search.—Towards noon Officer Bowyer [illegible] trace of the thief from the agent of the Collins Steamship Line. The Agent stated that a young man with a carpet bag had been at the office during the morning to engage a passage to Liverpool in the Steamship [illegible]. He was told that the ship had [illegible] and could take no passenger. The young man pressed the matter, setting forth that he had urgent business in England at such a time and would pay a large premium for a State room. The agent told him that he had plenty of time to get to Boston, and that he could take the steamer, upon which he left the office.

The Police, on learning this fact proceeded to the New Haven depot [illegible] made for several of the officers to go [illegible]. About [illegible] o'clock in the afternoon one of the [illegible] [illegible] plush cap on his head [illegible] spectacles over his eyes and [illegible] carpet bag in one hand—George W Haydon. [illegible] was passed several times by Mr [illegible] who did not recognise him in his disguise. Officer Powers forthwith arrested Haydon and conveyed him to the Chief's office.

The firm were notified of the arrest and were soon in attendance. The carpet bag was then opened and the stolen property found in the bottom, just as it had been placed there by Haydon on taking it from the store. The prisoner appeared very indifferent in the matter until a daguerreotype likeness of a fine looking elderly gentleman was taken from the bag. This was a likeness of his father, and when his eyes rested upon [illegible] he appeared greatly agitated. Haydon was subsequently taken before the Mayor and committed for examination.

Congressional Printing.—Congress has ordered [illegible] 920 copies of the Pacific Railroad Report in [illegible] volumes, which will cost in the aggregate [illegible] 588.

Also 18,420 copies of Commodore Perry's Report on Japan in 4 volumes to cost $368,000.

Also, 19,840 copies of Lt Gillies Report (survey of the Amazon, we believe) in 6 volumes to cost $162,866.

The three give a total of $1,0[illegible]

The telegraph on Friday brought news of the destruction by fire of the plates of Commodore Perry's Report, which were insured, however, for $60 000.

☞There is no use talking—we can't keep house without the Milwaukee *Sentinel*. It failed reaching here yesterday.—*[illegible] Paper*

We sympathize with our contemporary's disappointment, the more especially as we prize its good opinion and always desire to be one of its household.

Illness of Judge Cole.—We regret to learn from the Madison *Patriot* that Judge Cole of the Supreme Court is suffering from an attack of bilious Pneumonia. We hope to hear of his speedy restoration to health.

Patent.—Among the list of patents issued from the U S Patent Office for the week ending April 1st, is one for Jas Hamilton, Jr, of Milwaukee for improvement in [illegible] steam whistles in locomotives.

Jefferson County.—The towns of Palmyra, Lake Mills, Oakland, Koshkonong, Aztalan and Sullivan, elected the Republican ticket for Town Officers by handsome majorities. Watertown and Concord the Democratic ditto.

Removal of James Ha[illegible].—The [illegible] *Journal* announces that [illegible] has removed James Halpin [illegible] Superintendent of Public Property. The *Madison Journal* assigns intemperance as the cause.

The Horicon Railroad [illegible].—The Ripon *Spur* of the 10th inst gives the following account of the progress of Railroad operations in that quarter:

Horicon R R.—Quite a number of laborers' Shanties are up and occupied on and about the Depot ground of this Company, adjoining this village, and the work has commenced. On account of the depth of the frost, which is not yet fully out of the ground, a very large force has not yet commenced work, but as soon as the state of the ground will warrant it, the work will be urged forward with energy.

Winnebago R R.—We should have noted the fact last week that the work had commenced at this point upon the road. We believe that the contractors first broke ground upon this route on the first day of April. It is [illegible] this road will be completed from here to Oshkosh by the time the Horicon Road reaches this point, which will be sometime probably between the [illegible] of September and the first of November next.

Rise of Farming Lands.—The following item exhibits the remarkable rise in the value of land by the approach of a railroad. The Milwaukee and Horicon Co hold many such securities:

The Ripon *Spur* says that four years ago M Sabin of that town bought 160 acres of land, and being a public spirited man mortgaged it [illegible] for three thousand dollars to aid in the construction of the Horicon & Berlin Rail Road. Those who look into mill stones a great way [illegible] predicted it would be ruinous [illegible]. Two years have rolled round and for the past two months he has been selling the land, all encumbered by the R R Mortgage, at the rate of from $50 to $200 per acre. This [illegible] of other [illegible] made the R R [illegible] thing and the influence of the R R made the great price.—*Fond du Lac Freeman*.

The Rush of Travel.—The Detroit *Tribune* of Thursday last says:

Nearly one hundred fifty passengers arrived on one train over the Great Western Railway yesterday—an index of the tide of travel that has begun to pour through our city.

Hotels in La Crosse.—The National *Democrat* says that two new Hotels are now going up in La Crosse which, when completed, will make *eleven* Hotels in that thriving young city.

Lake Shore R R.—The N Y *Tribune* of the 9th says in its money article:

The reports of the business of the Western roads, now that the severe weather is over and business men begin to move, are coming in very favorably. A dispatch from Milwaukee to day gives the earnings of the first week in April on the Wisconsin Lake Shore Road at $6,0[illegible], which indicates [illegible] 000 for the month, in excess over the estimate of the Manager.

Travel through Fond du Lac.—Since the opening of the Railroad to this city there has been a marked change in trade and travel. The cars continue to come in and go out loaded down with passengers. This morning over one hundred passengers went out on the morning train of cars.—*Fond du Lac Herald*.

Connection with Illinois Roads.—The Rockford (Ill) *Register* copies an article [illegible] in relation to the Company chartered to build a road from Grand Haven [illegible].

When the Milwaukee and Beloit road is completed [illegible] the Rockford Central thus bringing Milwaukee [illegible] Chicago [illegible] at least fifty miles [illegible] railroad [illegible] from Chicago [illegible] We think that the importance of the Rockford Central [illegible] the people [illegible] this region needs and must have to complete its present accommodation, and we have no fears but that it will be built.

With the opening of spring business at the U S Land Office has rapidly increased. [illegible] county of Wood [illegible] chances [illegible] for farmers [illegible] north and west part of Portage County [illegible]

Along the River.—The other day we [illegible] improvements worthy of notice [illegible] warehouse [illegible] dock and warehouse [illegible] of Bellows [illegible]

The building which they have erected is designed for storing merchandize &c. Another building is to be attached for the purpose of [illegible]

The increased amount of business [illegible] at this point the coming [illegible] increased demand [illegible] supplied by this Company.

Just arrived from Sacramento near the Warehouse, lies Captain [illegible] [illegible] Bellows [illegible] Mr P Mollit is [illegible] engineer and builder. The other [illegible] Boat [illegible] will be completed some time in June. We hope [illegible] 4th of July. Some of the Berlin people might like to take a ride on that day, without being compelled to leave before daylight and return at midnight.

Though a little out of order, we would mention that a little below Bellows Warehouse [illegible] large pile of stone and any quantity of fine looking timber, said to be intended for a Steam Grist Mill, but by whom it is being built or when it will be completed we are not able to inform the public.—*Berlin Courant*.

Business in Jefferson.—The Jefferson *Republican* of the [illegible] [illegible] not been [illegible] [illegible] hours, getting ready the lumber for building purposes, an unusually large amount of which will be used here the coming season.

Although a number of our old citizens are about leaving for the south, East and West [illegible] been [illegible] so long [illegible] will there be [illegible] sufficient number dwelling to accommodate those who wish to settle here [illegible] good per cent could be realized by building [illegible] on purpose to rent.

Der Atlas.—Herr [illegible], has [illegible] the *Journal* in the *Atlas*, a very neat and beautifully [illegible] sheet of eight pages. We believe this the first and the only German [illegible] to be a successful [illegible] Herr [illegible] has our best wishes [illegible] consistent republican [illegible] sure [illegible] we are forced to believe, an abundant patronage from our German friends.—*Kenosha Tribune*.

Immense Travel over the Central Road.—The three trains arriving over the Michigan Central road during the twenty four hours ending last evening brought in *twenty three* coaches. The cars on the Central road are of an unusually large size, and as they were all well filled they could not have contained less than 1,[illegible] passengers. The public seem to be taking a decided liking to this northern line of travel, and it is a matter of surprise, for [illegible] just management.

A telegraphic dispatch received at the Tremont House last evening stated that the train came over the Great Western road yesterday from the Suspension Bridge, consisting of [illegible] full coaches of the first class. It arrived at Detroit in time to connect with the westward train over the Michigan Central last night, and the swarm of passengers will be here this morning.—*Chicago Dem. Press*, of yesterday.

Dr C M Jackson—Dear Sir—For the past [illegible] years I have been severely afflicted with the Liver Complaint, Dyspepsia and Piles, suffering constantly the pains and inconvenience attendant upon such complaints, without energy, being scarcely able to attend to my business. I am now entirely free from [illegible] and ache of any kind and feel like a new man. I can very respectfully and unhesitatingly recommend your Bitters to all invalids.

THE ONLY MEDAL AWARDED

BY THE NEW YORK EXHIBITION TO THE ENGLISH or foreign Sauce Manufacturers has been obtained [illegible] numerous competitors by LEA & PERRINS for their

WORCESTERSHIRE SAUCE

whereby further testimony is afforded of its being the best Sauce extant.

The celebrity of this Sauce has extended to every quarter of the globe, and its efficacy in promoting the general health has commanded its being observed and acknowledged.

In the United States it is held to be the most agreeable condiment, and is esteemed for its tonic and invigorating properties, its habitual use enabling the stomach to digest the food.

On the Continent of Europe these qualities have been testified to by a gentleman who writes of LEA & PERRINS thus: "I have carried a bottle of your Worcestershire Sauce in a tour I have just completed through Spain and Portugal and believe I owe my present state of health to its use. Your Sauce is stomachic, and I think medicinal. I am with truth say there is nothing that travellers should go so [illegible] as essential to the comfort of life as this in those countries, as your Sauce."

In India, also, where it is found at the mess of every regiment, a medical gentleman writes from Madras to his brother in the same profession at Worcester [illegible] following terms: "Tell Lea & Perrins that their Sauce is highly approved in India and that it is in my opinion the most palatable, as well as the most wholesome Sauce made."

This Sauce is suitable for every variety of dish, and the universal demand which its excellence has created has led to many imitations being offered to the public under a variety of names, but the genuine may be known by the names of "LEA & PERRINS" being impressed upon the patent metallic capsules or patent glass stopper of the bottle as well as the labels and wrapper.

THE BEST NOW IN USE FOR MOULDING BRICK

It is simple in its construction, durable and easily kept in order, and can be worked by men of the most ordinary capacity. Twelve thousand is an ordinary day's work—although more can be made—employing only one horse, one man to mould, one to temper the clay, and three boys to carry off the brick. Certificates of their efficiency can be shown from all parts of the country. Machines for sale by B C TAYLOR, Dayton, Ohio, and J G BESLEY, Milwaukee. Price $700, with tempering shaft and set of five moulds including right to use.

THEATRE AT YOUNG'S HALL.—On Wednesday evening next, Mr. THORNE opens Young's Hall, as a Theatre, for a short season. The announcement will be found in our advertising columns. Mr. THORNE brings with him a small, but admirably selected Company, each member of which has decided merit, while the combined talent far exceeds that usually to be found in a stock company. Mr. THORNE himself is an experienced and competent manager, as well as a very good actor; and his daughter was "the bright particular star," at BURTON'S, for many a night last winter. The other members of the troupe are all of good repute, and have played with applause in the principal theatres of New York, Boston and New Orleans. New scenery and dresses have been prepared, and the services of a good Orchestra, with Mr. STEVENS for Leader, secured. The programme for the opening night is an attractive one, and, if the public sustain the enterprise liberally, Mr. THORNE will make early arrangements to build a handsome Theatre in our city, and open it with a first-rate Company. Believing that such entertainments, well conducted, offer to the public the means of innocent and not unprofitable amusement, and knowing that, under Mr. THORNE'S auspices, everything will be done "decently and in order," we commend his enterprise to the liberal patronage of our fellow-citizens.

NORTH'S NATIONAL CIRCUS.—The National Circus of LEVI J. NORTH, combining three Companies in one and accompanied by Professor HELMS' National Brass Band, will exhibit in our City on Friday and Saturday, the 2nd and 3rd of May next. This mammoth concern has been performing during the past winter at Chicago, in the Amphitheatre, to crowded houses. In the number and skill of the principal performers, the beauty and thorough training of the horses, the ready wit of the clowns, and the surprising feats of the Gymnastic Corps, North's National Circus is unrivalled. The Equestrian Troupe boasts of such daring riders as LEVI J. NORTH, (unequalled in his line) Miss CASTELLA, from the European Circusses, TOM OSBORN, &c. Among the Gymnasts are Mr. J. TINKHAM, whose somersets excite the marvel of politicians. JAS. MCFARLAND, famous for his "tight rope" dancing, and Sig. ANTONIO, so great a master of the art of Equipoise, that he could "balance" even the books of "the Forty." Besides the humans, there are such celebrated animals as the Dancing Horse "Tammany," the trick horse "Spot Beauty," and any number of Lilliputian quadrupeds. But see the advertisement for further and full particulars and remember that the Circus will be here on the 2nd and 3rd of next month.

FIRE.—Between 1 and 2 o'clock Saturday afternoon, a fire broke out in a row of wooden buildings on Lake street, opposite Ferry, in the Fifth Ward. The alarm soon brought the firemen to the spot, and notwithstanding the high wind and combustible nature of the buildings, the fire was speedily subdued. The tenement in which it originated, owned by Doctor Wanderly, and occupied by James Devlin, as a shop and dwelling, was pretty much destroyed, and the one adjoining on the east somewhat damaged by fire and water. No insurance on the property.

JUST RECEIVED a small assortment of the above named Pistols, together with the cap and ball for the same. These pistols are not only serviceable as a weapon of defence, but are admirably adapted for target exercise.

The cap, ball and powder are all together, and the Pistol can be charged in the same space of time required to place a cap on an ordinary Pistol. There is but little smoke or noise attending the discharge, at the same time the ball is thrown with sufficient force to do great execution. As this style of Pistol is only made with two sizes of bore, no difficulty will be experienced in procuring the caps to fit them.

Lady Mary lived and wrote in the first half of the eighteenth century, when our land was a component portion of the British empire, and consequently her genius and her fame are ours by inheritance. Her Letters will be found valuable as well as amusing, aiding the students of history to catch the manners and opinions of English society in high life—then the dominant power of the realm, at the time Benjamin Franklin and his co-patriots in this western world were working out the problem of American independence and popular sovereignty."

F. M. LANE'S PERMANENT GLOSS PAINT.
Important Improvement in Painting!

A PERMANENT GLOSS PAINT for interior work has long been a desideratum. All paints prepared from Linseed Oil, will rapidly turn from the lightest and most opposite tints to the yellow color of the oil itself; the change being the more rapid as the paint is excluded from the full light of day.

The subscriber, after a sufficiently long experience in its use, can recommend it as the only Gloss Paint in which this important defect is effectually remedied. This beautiful paint can be applied of any color, from the purest white, resembling enamel or porcelain, to all the different varieties of tints, suitable for private dwellings, Churches, Hotels, &c., whilst in brilliancy and richness of surface it surpasses all other paints; it possesses superior advantages in retaining permanently even the most delicate colors with which it is combined.

Also, Plain and Ornamental Painting, decoration of Private Dwellings, Churches, &c., Sign and Fancy Painting.

THE BEST FIRE-PROOF SAFE in the World, Depot No. 122 Water St., near Wall St., New York. The thousands of Certificates from Merchants, Bankers, and Mechanics of all trades, that have been given in favor of this, the only true "SALAMANDER," renders it useless for the subscribers to multiply words in its favor, as full twenty-five thousand of "WILDER'S PATENT SALAMANDER SAFES," have been manufactured and sold in the United States; and in almost every large fire that has taken place during the last ten years, these Safes have been subjected to the SEVEREST TESTS, and not one of the "Genuine Salamanders" has ever been destroyed.

In order the better to do this, the proprietors have erected a large brick Foundry in addition to their former premises. They have added to their stock of Tools a large Planing or Shaping Machine, three Lathes, and a Machine for making bolts, and are now putting in a Steam Engine of — horse power to drive the whole, thereby adding to the former facilities for the successful carrying on of the Foundry, Machine, Engine and Blacksmithing business. They never were in a better position for doing business, and

in any department.

In regard to the character of the work got up by this

The Oldest Establishment in the State,

the Proprietors refer to that in successful operation through the country as their best recommendation, as it can speak for itself. All they can say is, that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man.

They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principle.

They have always on hand a large stock of BRASS WORKS, such as GUAGE AND CYLINDER COCKS, OIL CUPS AND COCKS, and STEAM WHISTLES. Also TURTON'S FILES, which they will sell at the lowest cash price.

They are also Agents for EASTMAN'S PATENT STEAM GUAGES, which are well worth the attention of all those who use Steam Engines.

In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.

Their motto is, "*Excelsior.*"

The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incompatible ease with which losses are settled. EVARTS' PATENT SHINGLE MILL

EVARTS & BUTLER,
PROPRIETORS & MANUFACTURERS,
CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution; and the flexibility of the shingle width-wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market seventy-five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.
